

網路金融創新產學小聯盟簡介

Industry-Academia Alliance for Internet Financial Innovation

國立清華大學 科技部產學小聯盟計畫

Vision of the Alliance

The alliance targets some new core technologies for Internet financial innovation, including credit risk technology, credit evaluation technology, quantitative finance technology, robo-advisor, volatility, insurtech, information security technology, blockchain, etc. The promotion by the alliance enables Taiwan's Internet financial innovation industry to understand the future development. The alliance also expects to promote the technical level of related industries to maintain competitiveness.
